MADE IN ITALY

Tiziano

Tiziano was an Italian painter, citizen of the Republic of Venice. Innovative and multifaceted artist, master of tonal painting.

For us at Diapath, it represents what we believe in. **Made in Italy and Italian Design** are not simple inspirations, but Values we live every day, **our way to Excellence**.

The automatic solution is designed to guarantee special stains reproducibility.

Tiziano was born from the need to simplify the manual staining processes of special stains by facilitating specialized laboratory professionals. Thanks to the **automation** of special stains, an **improved workflow** and **consistency of results** can be obtained. The Tiziano line includes **Tiziano Automatic Stainer**, a wide range of ready-to-use kits and different accessories specific for reagent management. Its **Ultra Compact** size allows a considerable space reduction making it suitable for its use under laboratory fume hood **reducing operator exposure** to chemical reagents.

Tiziano features, designed to facilitate the work of laboratory professionals.

SPACE-SAVING DESIGN

The small size makes it easy to handle and adaptable to any type of laboratory.

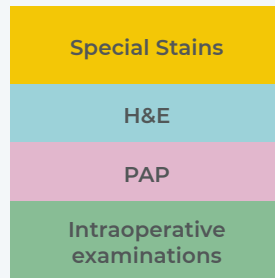

EASY PROTOCOLS MANAGEMENT

The **intuitive software** and the Tiziano APP allow to create and modify staining protocols, according to laboratory preferences.

READY-TO-USE KITS

Diapath has developed a dedicated KIT line to be used on Tiziano Automatic Stainer, offering **optimized and validated protocols** for a max performance.

NOT ONLY SPECIAL STAINS

Tiziano Automatic Stainer can easily adapt to different laboratory needs. It can be used for H&E, PAP, intraoperative examinations with rapid protocols. Suitable for cytology and microbiology stains.

The system advantages

QUALITY

Customizable staining and optimized pre-installed protocols provide high quality results.

STANDARDIZATION

Staining quality guaranteed at every run.

REDUCED MAINTENANCE

The instrument requires only simple maintenance procedures.

- 1 AUTOMATIC ARM**
The arm carries out the staining protocols by moving the slide rack into the reagent tanks, allowing up to 4 different types of movements.
- 2 SLIDE RACK**
With capacity of 10 slides.
- 3 REAGENT TANKS**
Practical tanks for reagents are equipped with a maximum level mark to ensure optimal filling and staining.
- 4 WASHING TANK**
Ensures optimal washing steps required during special stains protocols.
- 5 LED LIGHT**
The blinking light indicates that the staining is in use. An acoustic signal will warn the operator at the end of the staining protocol.
- 6 TABLET**
The intuitive Android software, 7 languages available, allows protocols storage for a safe staining management.
- 7 WATER AND WASTE TANKS**
Handy 2.5 Lt tanks permit an easy management of water supply.

Accessories for an easy reagents management*

Reagents KIT can be stored and managed through the use of support accessories:

SET OF 7 STAINING TANKS

a dedicated tank for each reagent.

CODE: SDSTZ0003

SET OF 7 SILICONE LIDS

to be used to avoid evaporation of the reagents during storage.

CODE: SDSTZ9010

7 TANK SET SUPPORT

allows an handy and safe storage of reagents.

CODE: SDSTZ0006

COMPLETE LID FOR 7 TRAYS

offers the possibility to cover the reagents when the instrument is in standby.

CODE: SDSTZ0004

SPILL CONTAINMENT TRAY

provides greater safety and support in handling reagents.

CODE: SDSTZ0007
